FAX: (860) 564-1989

March 7, 2019

Dear Parent/Guardian:

The administration of the Sterling Community School would like to provide you with notification that radon-in-air testing will be conducted the week of March 25, 2019. According to Connecticut General Statute 10-220(d) schools are required to inspect and evaluate the indoor air quality of school buildings. This required inspection and evaluation of indoor air quality includes evaluation of radon in air and water.

EASTCONN will conduct the radon testing. To test for radon in air, small canisters containing charcoal will be placed in each of the occupied rooms that are in contact with the ground. These canisters will be left in place for three school days. You will be informed of radon test results and interpretations as soon as possible. In the event that high radon levels are found, steps will be taken to correct the problem using methods suggested by the United States Environmental Protection Agency.

If you have further questions or concerns regarding radon, please feel free to contact the Northeast District Department of Health at 774-7350, or the State of Connecticut Department of Public Health Radon Program at (860) 509-7367.

Thank you, in advance, for your cooperation.

Sincerely,

Gail Lanza  
Superintendent of Schools
